

LAURENTIAN UNIVERSITY

Basis and Timing of Offers of Admission

Applicants attending semestered schools may receive an early conditional offer of admission by late February 2007 if:

- they have completed at least three 4U or 4M courses with an overall average equal to or better than the program cut-off; and
- they are following a sufficient number of courses in order to complete at least six 4U or 4M courses by the end of June.

Please note: Applicants who are marginally below the program cut-off, but whose overall average in level 3 and 4 (Grades 11 and 12) courses is 70% or higher, may be considered for an early conditional offer. Applicants attending non-semestered schools may receive an early conditional offer once the Office of Admissions has received interim grades for at least six 4U or 4M courses (not prior to March 10, 2007) showing an interim average that is equal to or greater than the program cut-off. Applicants who do not receive an early conditional offer of admission will be considered on an individual and on-going basis as additional marks become available. Students who are not offered admission to their preferred program will automatically be considered for admission to an alternate program depending on program availability and provided that they meet university entrance requirements.
