

## UNIVERSITY OF TORONTO Basis and Timing of Offers of Admission

All Ontario secondary school applicants are required to present six 4U or 4M courses, including all prerequisites. Note that ENG4U is a prerequisite for all programs. Depending on the faculty, program of study and campus, and the applicant's academic record, conditional offers of admission based on final 3U and/or 3M, and interim or final 4U and/or 4M results, will be made between late February and late May.

Individual programs at the University of Toronto, while recognizing that there may be valid reasons to repeat a course, reserve the right to give preference to students whose marks are the result of a first attempt at each course, particularly in prerequisite subjects. All applicants can expect to receive decisions by late May, 2007.

All offers of admission are conditional upon final results and completion of the diploma.
