

# UNIVERSITY OF TORONTO MISSISSAUGA

## Basis and Timing of Offers of Admission

All Ontario secondary school applicants are required to present six 4U or 4M courses, including 4U English and all prerequisites. Conditional offers of admission will be based on interim or final 4U or 4M courses, and will be made between April and early June 2007. The marks obtained in relevant 3U or 3M courses may be considered. Outstanding students may be considered for early conditional offers (February) based on their Grade 11 grades and proof of registration in Grade 12 requirements. While recognizing that there may be valid reasons to repeat a course, UTM reserves the right to give preference to students whose marks are the result of a first attempt at each course, particularly in prerequisite subjects. All offers of admission are conditional upon final results and completion of the diploma.
