

UNIVERSITY OF TORONTO SCARBOROUGH

Basis and Timing of Offers of Admission

All Ontario secondary school applicants are required to present six 4U or 4M courses, including 4U English and all prerequisites.

Conditional offers of admission, based on final 3U and/or 3M and interim or final 4U and/or 4M results, will be made between late February and late May. Particular attention will be paid to achievement in prerequisite courses.

All offers of admission are conditional upon acceptable final results and completion of the diploma. The minimum admission grade ranges required may vary annually depending on the competition for the available spaces. While recognizing that there may be valid reasons to repeat a course, U of T Scarborough reserves the right to give preference to students whose marks are the result of a first attempt at each course.

Applicants to the following programs will be considered automatically for an alternate program choice at UTSC should their original choice not be approved: co-op programs, Concurrent Education programs, Joint Programs with Centennial College, Management programs, and Computer Science programs. Note that an alternate offer of admission will be to a non-co-op program only.
